It is true there are those who regard the action of the Democratic party of this State with different feelings. There are men who in all things seem to feelings. There are men who, in all things, seem to be animated by the fell supposes of ruin and wrong; who exult only when the nation suffers; who labor only to promote ill-blood and injurious results; and who mourn when the patriot rejoices. The bold and ennobling spirit of Pennsylvania, while it carries joy to others, makes them sad. When they see this spirit revive the better feelings of the people, they are indignant at the spectacle, and curse the good future of the country. These men are the opponents of the Democratic party in this state. They heap the most infamous epithets upon the men who have toiled that our good old party should not fail to speak out for the Constitution, and they allude to the action at Reading as to a deed which contemplates the overthrow of all that is good. We have before us a dozen newspapers filled with atrocious calumnies upon the late Democratic State Convention. One of these, the Pittsburgh Journal, a Scott and Johnston paper, says of one of the resolutions of that body :

We think we see the manifestations of disgust and contempt with which the high minded sons of the North receive these proffers of self prostitution from northern men. They deserve only scorn and contempt, and we shall be surprised if they meet with any other return from the southern men.

REVIEW OF THE WILMINGTON MARKET,

Virginia

Since our last Thursday's review, we have had severa showers of rain, and our advices from Fayetteville un to the Acquia Creek, with lumber and naval stores, by Ellis, Rus-I have kept dogs; but it was in early youth, before the formation of my character, and, indeed, before my dislike to animals had been fully developed. I owned a setter once.—

I was unconscious of the feet when I bought har but poinful 25th, state that the river had rose about four feet. The Steamter on the shoals. We however can hear of no produce of consequence on the way down.

So far as regards the receipts of Bacon, Lard, & Naval Stores | care. per Rail Road, all above Neuse River is now, in consequence editorial head, is entirely cut off, and the probability is, that purse filled with guineas. Where the pig goes to, and how most of these articles are destined to materially advance in he guineas appear in its place, while the conjurer stands in price. We learn that there is now ready for the market beyond the Neuse, upwards of 500 bbls. of Spirits, and a large few days: of course it is now impossible for it to arrive until the bridge can be replaced, which will probably be at least something about two months. Bacon and Lard must go up, miles at the expense of only one and-a half cents per ton for as the quantity on hand is reduced. The latter article is already remarkably scarce. Below will be found such remarks on the state of the market as times seem to require.

BACON.-The stock of North Carolina Bacon in factor's hands is only about fair, and quotations fully sustained, with DATIGNT Boxes for Wooden Axles.—The best article an upward tendency. The stock of Western Bacon has been nearly all worked off, only a very few hhds of shoulders re-riety, by

BEEF CATTLE.-The market continues to be but poorly supplied with Beef Cattle. The stock brought in is of very

FLOUR-Stock about fair, and quotations without material change for lots from store.

FEATHERS-Are 21 cents per lb. lower. See table. HAY-126 bales Eastern hay sold from wharf, in lots to mit, at 75 a 85 cents per 100 lbs.

NAVAL STORES-The market for Turpentine has varied during the most of the week. There has none been sold during the most of the week. There has none been below our last week's highest figure.
